

Pre-Employment Drug Screening Consent Form

I recognize that the use or abuse of alcohol, drugs, or any chemical substance by any employee can create an unsafe working environment.

Therefore, I voluntarily consent to search by the Employer for any person or personal effects, vehicles or other items brought on Company property or work sites.

I also voluntarily consent to a urine, blood or breath sample for purposes of an alcohol, drug, intoxicant, or substance abuse screening test. Further, I voluntarily consent to the release of the test results, from each test that may preclude my employment or my continued employment.

Furthermore, I understand that my failure to execute this consent form will result in my not being considered further for employment.
